About MIT-WPU School of Education

The MIT-WPU School of Education was established in 2007 with the explicit purpose of revolutionizing the Learning Pedagogy of Primary & Secondary School Education in India. The Teacher Training curriculum being taught here goes above and beyond the call of duty for each teacher. India has a rich tradition of 'Gurus' and this coupled with the modern demand for a professional, yet completely involved teacher-driven schooling system led MIT-WPU to create a unique teacher training methodology that combines the most modern of outlooks within the field of teaching-learning pedagogy with the time tested traditions of the Guru Shishya Parampara in India.

Duration : 2 Years

Trimester : 6

Intake : 100

About BEd

BEd graduates can take pride in the fact that they are laying the foundation for future generations to come. They will be contributing to build a learner centric ecosystem that shapes youngsters into confident individuals who can work to bring our nation at par with global standards. Every year we meet heterogeneous groups wherein we also get students from various backgrounds such as Engineers, Liberal Arts, Commerce, MBA and students who have completed MPhil. Such an intellectual group gets the opportunity to interact with each other to develop their knowledge and get ready to become a Teacher with Global Perspective.

Nature of Work for BEd Graduates

MIT-WPU School of Education is the place that would prepare competent graduates to develop themselves and contribute in nation building as efficient teachers at primary, secondary education, assistant teachers, and coordinators and leaders in educational institutions.

Student Testimonials

Purvashree Joshi

MIT WPU's School of Education provides an excellent platform for aspiring teachers like me. I found the curriculum to be very well-planned, engaging and also up-to-date with the changing times. The faculty, who are knowledgeable and dedicated, are excellent guides to us. We were meticulously trained by them to conduct effective lessons and classroom management techniques were taught too. This practical experience helped us in honing the perfect skills necessary in the teaching profession. They have provided us with a nurturing environment with immense cooperation and support. I would like to express my gratitude to the entire team of this organization for encouraging me to always put my best foot forward.

Elizabeth Dayal

The experience at MIT-WPU School of Education throughout the academic year was very interesting and challenging. We have a bunch of extremely talented and knowledgeable professors who patiently groomed us to be better teachers. Their thorough knowledge of their subject and practical scenario of schools give us a better insight into the requirements of future teachers and therefore provide us with the right direction to perform better.

Rashmi U Kanakia

I was really happy with the support extended to us by the Professors and Staff at the MIT-WPU School of Education. I feel extremely lucky to be in an environment that allows me to conduct research on what interests me the most, so in all my time here I have never felt bored. To any new student coming to the University, I would say this: Throw yourself at every opportunity that comes your way. Thank You MIT-WPU!

Prashant Shashikant Bavdhankar

I am grateful to MIT-WPU both the faculty and the Training & Placement Department. They've made efforts to ensure the maximum number of placed students. The university started grooming us for placements in the first few months including courses such as Professional Excellence Program and Professional Skills Enhancement. I was completely confident and cracked the aptitude and technical tests and interview rounds due to the mock tests and interviews conducted by the Training & Placement Department and our faculty members. MIT provides a great platform for skills enhancement and to get a great learning experience.

Eminent Experts Opine

Milind Naik
Principal, Jnana Prabodhini School, Pune

Our school and MIT have bonded over the internship program for the last 3 years. The student-teachers of MIT have shown immense commitment to their work and a genuine learnability. They eagerly and enthusiastically undergo the internship programme designed by Prabodhini and exemplify that they are capable of honing the skills of future generations. All my best wishes to them and the institute.

Radhika Vaidya
Principal, Millennium National School

It was a pleasure to host the students of MIT for their B Ed internship, in Millennium National School. The batch of students was sincere and very proactive during their internship period. Along with their lesson teaching and classroom observations; they conducted a host of extracurricular activities in various classes. Their eagerness to learn was reflected in the way they conducted themselves in the school for all academic and non- academic activities. The students showed readiness to visit primary and secondary sections and were a helping hand for various activities like sports, Annual Gathering and Hobby classes, in school.

Centre for Industry-Academia Partnerships

The objective of this initiative is to build a strong collaboration between university and industry partners. CIAP believes that the collaboration between industry and academia is fundamental in catalysing the innovation and growth in technology. While industry partners quite often focus on providing solutions that have greater impact on businesses, educational institutions focus on building new knowledge through research and imparting education to students which make them

ready to serve those industry needs. CIAP as a catalyst plays an important role in creating more and more

opportunities and make student equip with the skills that are needed to be served.

The key functions like Industry Partnerships, Career Services, Internships and Alumni Engagement are forefront in serving the ongoing needs of our students and alumni. These functions not only engage the students in improving their skills through the structured assessments, training and grooming activities, they also help students gain the strength to get best of the job opportunities by collaborating world class employers.
